**Base Natural** Marble aggregates:

42 Brown 51 White

52 Scatter

53 Grey

Bench model \*\*268-B\*\* is made from high-strength fiber-reinforced concrete with a homogeneous aggregate structure of natural marble or granite stones. The structural aggregates have a strictly defined size and color range, determining the main textures: white, scatter, gray, or brown. Various technological methods of treating the concrete surface ...
