RAL 702...

BASE Natural Marble aggregates:

51 White

42 Brown

53 Grey

SEAT Wood Timber:

Eco wood

Bench model **268-I** is made of high-strength fiber concrete with a homogenous structure of natural marble or granite stones. The structural aggregates are precisely defined in size and are combined in various color combinations, which determine the primary textures: white, scatter, grey, or brown. The combination of a polished and textured surf ...
