CONCRETE EASY-CHAIR 106

863.00 €

Beautiful, innovative furniture for modern park equipment. The easy-chair is made out of high-performance concrete with natural aggregate. The concrete is reinforced and fibre strengthened. The aggregate is made of natural marble or granite stones and is available in different colours and sizes of its constituent particles. All surfaces are polished and covered with a protective coating. These technological treatments reduce the deposition of dirt and give the product even greater resistance to aggressive weather conditions. The specially designed ergonomic design creates comfort and an opportunity for a relaxing break. The elegant curve, the velvety surface and the colour range create a modern style and individuality. Beautiful exterior furniture for every home and garden.
