Kensington S

400.00 €

The Kensington Sofa provides a modern, minimalist, yet extremely elegant look.

This sofa is designed with your pet's comfort in mind, as the softly padded edges encourage your dog to curl up and enjoy optimal sleep. The stylish raised frame increases the feeling of security and widens the field of vision, as well as protects against drafts and insulates against cold or hot floors. An additional advantage is that almost any cleaning robot will be able to drive under the Kensington sofa.

The soft and elegant upholstery of the Kensington sofa is incredibly resistant to abrasion and very easy to maintain. If necessary, the removable cover can be easily washed in the washing machine to refresh it. Providing animals with the best means that we only use the highest quality "Pet Friendly" textile materials for furniture (Martindale test over 100 thousand rubs), which is manifested by very easy removal of hair or dirt and does not allow them to be absorbed into the fabric.

The sofa seat is covered with thermoplastic Viscor foam, which increases the body support surface by up to 60% compared to a regular mattress. This reduces pressure on blood vessels, which in turn has a beneficial effect on circulation and regeneration during sleep. Due to the antibacterial properties of the materials, the sofa remains

fresh and is recommended for allergy sufferers.

This designer product, handcrafted by the best craftsmen, is first and foremost a safe haven for your dog, but its unique design will beautifully fit into the interior of your home.

Material

Upholstery: Velvet (100% Polyester) with OEKO-TEX 100 Certificate, improved with advanced Easy Clean and Pet Friendly properties.

Easy Clean – The fibers are covered with a special finish at the production stage, which protects the fabric from dirt. Thanks to this, any stains are quickly and efficiently subject to the cleaning process.

Pet Friendly – fabrics from this group have undergone specialist laboratory tests to check their resistance to pulling due to scratching. They are characterized by higher durability and easy cleaning.

Filling : Upholstery foam

Seat cushion filling : **Viscor** thermoplastic foam and upholstery fabric

Base: Powder coated metal frame in gold or black, or polished stainless steel frame

Safe and exclusive packaging.

We take care of the safety of our products during delivery. We pack them in durable, waterproof covers so that they reach their new owners in perfect condition.

Please note: fabric colors may vary depending on your screen settings. We recommend ordering a free sample before purchasing. Our team is always ready to help with any questions or concerns. For more information, please contact us, we will be happy to answer your questions.
