CONCRETE BENCH 278 ES

Seat polished, sides exposed aggregate

1,879.00 €

Made of high-performance reinforced concrete with fiber structure and natural aggregate of marble or granite stones with defined sizes. The concrete bench has a polished surface. The aggregate structure has the possibility of different color combinations. Due to the high-quality treatment with a protective coating, which makes the product even more resistant to the aggressive weather conditions, the pollution deposition is reduced and the hydrophobic properties of the concrete are improved. An interesting asymmetrical bearing solution can be an excellent sign of any urban space. Provides aesthetics and stability and is the perfect complement to the interior or exterior furnishings of airports, stations and shopping malls.

The bench combines the aesthetics of geometric shapes as provoking any outdoor space.
